

## LAUNCHING OF THE IMPACT OF THE SYRIAN CRISIS ON THE LEBANESE POWER SECTOR STUDY

Under the auspices and presence of the Minister of Energy and Water, H.E. Cesar Abi Khalil and the UNDP Country Director Mr. Luca Renda, the study on the impacts of the Syrian displaced on the Lebanese power sector was published. The study was funded by the Kingdom of the Netherlands. Presentations on the current status of the power sector, the methodology of the study, its results and priority recommendations and the Lebanon Crisis Response Plan (LCRP) were featured.

## MEDRAR MEDICAL CENTER IS ALMOST COMPLETE!

The 1.08 MW ground source heat pump (GSHP) implementation at the MMC in Choukine, South Lebanon, is almost complete. The 180 boreholes have been dug and connected to the manifolds. Once operational the project is expected to cover the partial heating, cooling and hot water demands of the hospital complex.

## THE IMPACT OF THE SYRIAN CRISIS ON THE LEBANESE POWER SECTOR AND PRIORITY RECOMMENDATIONS

This month's featured publication details the impact of the Syrian crisis on the Lebanese power sector. Surveys of the power consumption in the host communities, both in formal and informal settlements, have been conducted. Furthermore, consumption data has been collected from EDL to validate the collected values. The report provides an overview of the current situation, the methodology used in the study and presents the list of recommendations.
